

While we are all excited to compete in Malaga there is another mission we can all help with whilst there. We would like to encourage all Canadian athletes and supporters to be ambassadors in promoting the World Masters Championships when Toronto hosts the next one in 2020.

There is a TORONTO 2020 booth at the TIC in Malaga and which we anticipate to be staffed throughout our visit to Spain. Key members of our Toronto 2020 Local Organizing Committee will be there too, but also have official presentations and behind-the-scenes fact-finding visits.

**If anyone is available for a morning or afternoon to attend at the TO2020 booth that would be appreciated: please contact Irene at [irene@wmatoronto2020.com](mailto:irene@wmatoronto2020.com)**

Everyone attending can actually help support Toronto 2020 quite easily: at the very least please speak to your fellow competitors, other athletes and spectators about the opportunity for them to compete in Canada in 2020. We are our own best advocates for our great country and masters competitions here.

Please use the Toronto 2020 website as our primary reference point <http://wmatoronto2020.com/>

Let's all make the 45th anniversary of the WMA Championships in 2020 be as successful as the very first one held in Toronto in 1975.
